The Career Technology Education (CTE) department is up and running as we transition back to the classroom.

Mrs. Nash is working with her students virtually and in person to provide realistic experiences with practical applications. Her Introduction to **Career and College Research and Development (CCRD)** students are identifying appropriate references and drafting effective resumes that will strengthen their employability. Summer is coming and many of our students will be looking for part-time jobs, and strong resumes will ensure more opportunities for our students.

With a focus on work-based learning, Nash runs **Towson High's Teacher Academy of Maryland**, an accredited program for Maryland high school students looking to become educators. Aslynn Gorkos (senior) is completing her virtual internship and working on her teaching portfolio. She has participated in two service-learning projects for Educators Rising: she has made brain-breaks and audio-video recordings of children's literature for use among BCPS elementary educators.

Additionally, six Towson students attended the 2021 **Maryland State Educators Rising Conference** virtually on March 23rd. The keynote speaker was 2018-19 Teacher of the Year, Dr. Richard Warren. The one-day conference was designed for students who aspire to be teachers and are considering a career in education. The event consisted of informative, interactive sessions designed to inspire by providing students with valuable insights into the profession.

Mr. Brotman is working on personal branding with his **Advanced College and Career Research and Development** students as many of them are preparing to graduate and will need a personal "brand" as they look to market themselves for future careers. Things like effective use of Social Media, Personal Values and Goals combine to create effective online personas and branding statements that will eventually become part of student portfolios.

We are also gearing up for next year's interns. This week's meeting (Monday, April 12, 2021) has introduced some of our students to the internship opportunities that the pro-

gram offers along with some suggestions for students looking for unique fields where securing internships can be a challenge.

CTE would like to send a special shout out to Carter Thorn who is finishing the CCRD program and has been nominated as Towson's CCRD/CTE student of the year. Carter has successfully completed his CCRD program as a stand-out student and will be recognized at this year's CTE recognition ceremony which will be held virtually on May 5, 2021.

Guidance Counselor vs. School Counselor

www.schoolcounselor.org

Historically, the term “guidance counselor” was used to refer to counselors working in the schools. This term has evolved to “school counselor” as the scope of duties has changed and evolved. Although some schools still used the outdated “guidance counselor” term, the American School Counselor Association encourages the use of “school counselor” to more accurately reflect the role.

GUIDANCE COUNSELOR

- Reactive
- Services to some
- Impact measured via feelings and perceptions
- Ancillary role to school improvement process
- Work in isolation

SCHOOL COUNSELOR

- Proactive/data-driven
- Program for all
- Impact measured via achievement, attendance and behavior data
- Essential role in the school improvement process
- School counselors as school leaders
- Develop, manage and evaluate a comprehensive school counseling program

Excerpt from “*School Counseling Principles: Remembering the Past, Shaping the Future: A History of School Counseling*,” by Norman C. Gysbers, Ph.D.

“The terminology issue is still with us today. Is it guidance, counseling, guidance and counseling, or

counseling and guidance? The American School Counselor Association (ASCA) has come down firmly on the side of the term school counseling program although the literature still reflects the usage of various combinations of terms. The terminology issue also is reflected in personnel titles. Again, ASCA has come down firmly on the title school counselor, although the public still uses the title guidance counselor, and some school districts use the title guidance dean, going back to a title used earlier.

The terminology issue is interesting from a historical perspective too. Remember the first term was vocational guidance, and then many modifiers were placed in front of the word guidance. In the 1930s guidance became a service within pupil personnel services with five services: information, assessment, counseling, placement and follow-up. Then the counseling service assumed prominence, so the common labels used were guidance and counseling. Information and assessment continued to be a part of guidance and counseling, but placement and follow-up became less important and have now almost disappeared as active parts of school counseling. Following ASCA's lead, counseling became the label of choice as in school counseling programs. Guidance is still present but is used to label one of the delivery components of the program, namely, the guidance curriculum.”

Baltimore County Public Schools Face Covering Guidelines

One of Baltimore County Public Schools' (BCPS) highest priorities is to ensure the health and safety of its community including employees, students, and the public. The Centers for Disease Control and Prevention (CDC), the Maryland Department of Health (MDOH), and the Maryland State Department of Education (MSDE) advise that people who may be infected with COVID-19 (whether asymptomatic, symptomatic or pre-symptomatic) play an important part in reducing community spread. The use of face coverings by everyone can limit the release of infected droplets when talking, coughing, and/or sneezing.

- I. GENERAL GUIDELINES:** Subject to the exceptions set forth below, each student, employee, visitor, vendor, or other person is always required to properly wear a face covering while at or inside a school/facility, school bus, or other vehicle owned, leased or operated by the Board of Education. **Properly wearing a face covering requires the person to cover both the nose and mouth with a face covering that fits snugly on the person's face without large gaps. A face covering may be factory made or hand sewn and must be appropriate for school. It should not have a valve.**

A. EXCEPTIONS: Face coverings will not be required in the following instances:

- I. For All (Students, employees, vendors, and visitors):**
 - a. Infants:** A face covering shall not be required for persons younger than two (2) years of age;
 - b. Persons with Disabilities:** A face covering shall not be required for persons who are unable to remove it independently, or who are developmentally unable based upon the cognitive, sensory, and/or adaptive needs as outlined on a student's existing Individualized Education Program (IEP) or 504 plan;
 - c. Identification:** Administrators, security staff, and other appropriate employees may ask someone to briefly remove their face covering to verify their identity. Physical distance will be observed during these requests, whenever possible.
- II. For Students:**
 - a. Regularly Scheduled Mealtimes:** A face covering shall not be required for any person inside or outside a school district facility while such person is eating during a planned mealtime;
 - b. During Receipt of Health Care:** A face covering shall not be required for any student inside or outside any BCPS owned or operated building or vehicle when removal of the face covering is necessary for the student to

receive health care or to undergo a health care examination from authorized health care personnel; or,

- c. **Brief Mask Break:** A face covering shall not be required for any students inside or outside of a BCPS facility if the student requires a brief face covering break and is able to maintain a 6-foot physical distance from other persons;
- d. **Medical Certification:** A face covering shall not be required for students who have a bona fide medical or physical contraindication that prevents the student from being able to safely wear a face covering. In these circumstances, the parent/guardian of the student may submit medical documentation of the need for the exemption from a health care provider to the Office of Health Services;
- e. **Demanding Circumstances:** A face covering will not be required if a student is experiencing acute trouble breathing, is unconscious or incapacitated, or is personally unable to remove the face covering without assistance.

III. For Employees:

- a. **Alone in Private Workspace:** A face covering shall not be required when an employee is alone in a private workspace, such as an office, county-owned vehicle cubicle, or classroom. If another employee or student is present, the employee must immediately don a face covering.
- b. **Employees with Supervisor's Approval:** A face covering shall not be required when the school system official supervising an employee authorizes the employee to remove their face covering when wearing a face covering would create a safety risk to the person as determined by local, state, or federal regulators or workplace safety guidelines. If this occurs, the employee must maintain physical distancing (six (6) feet minimum) from other persons;
- c. **Regularly Scheduled Mealtimes:** A face covering shall not be required for any employee inside or outside a BCPS owned building or vehicle while the employee is eating during a planned break or mealtime provided that the employee maintains physical distancing (six (6) feet minimum) from other persons when not wearing a face covering;
- d. **Strenuous Physical Activity:** A face covering shall not be required for any employee inside or outside of any school district facility or building while such person is engaged in strenuous physical activity provided that the employee maintains physical distancing (six (6) feet minimum) from other persons when not wearing a face covering;
- e. **Demanding Circumstances:** A face covering will not be required if a person is experiencing acute trouble breathing, is unconscious or incapacitated, or is personally unable to remove the face covering without assistance.

B. FACE COVERING TYPES (students, employees, vendors and visitors): All students, employees, visitors and vendors must supply and wear their own face coverings while at or inside a BCPS owned building or vehicle. The following face covering types are approved for compliance with these guidelines:

- I. Commercially Produced Face Coverings:** Commercially produced surgical masks or respirators are acceptable for compliance with these guidelines;
- II. Cloth Face Coverings:** Cloth face coverings are acceptable for compliance with these guidelines provided that the face covering covers both the nose and mouth of the person and fits snugly on the person's face without large gaps. The U.S. Center for Disease Control has issued instructions on how to make a cloth face covering at: <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/how-to-make-cloth-face-covering.html>;
- III.** The face covering may not have a valve.

2. LIMITATIONS/ENFORCEMENT: NO STUDENT or EMPLOYEE shall wear a mask that violates Board Policy and Superintendent's Rule. Consistent with Policy and Rule 5220, students will not wear facemasks that are disruptive to the school environment, that promote illegal or harmful activities or that could endanger the health and safety of the student or other students, which includes but is not limited to that which:

A. PROHIBITED FACE MASK TYPES:

- V.** Causes or is likely to cause a substantial or material disruption to school activities or the orderly and safe operation of the school or at school-sponsored activities; and/or
- VI.** Contains rude, disrespectful or discourteous expressions inconsistent with civil discourse and behavior.

B. EMPLOYEES: All employees are expected to comply with the face covering requirements above for the health and safety of themselves, their colleagues, students, and others. Employees who do not comply should be reminded of these guidelines. If they refuse to comply after being reminded, the employee may be disciplined

according to their respective collective bargaining agreement or other school board policies.

- C. STUDENTS:** All students are expected to follow face covering requirements while in school or school sponsored activities/events for the health and safety of themselves, school staff, and others. Students who do not comply should be reminded of these guidelines and provided with a face covering if needed. In addition, the following steps will be implemented when students violate safety guidelines:

Level I Response I- Initial Intervention:

- Discuss rationale for non-compliance with student.
- Re-direct student to wear face covering and/or wear it appropriately.
- Review face covering protocol with student.
