# THE TOWSON PRIDE

*On a bi-weekly basis, we acknowledge the outstanding efforts of our staff and students. We encourage our staff to submit accolades for recognizing the dedication of others. The accolades appear on the first pages of our newsletter. As contributing members to Towson High School, we represent 5 STAR Generals.*

*We appreciate our staff and students for demonstrating leadership, citizenship, scholarship, and integrity. If you would like to submit an accolade for one of our students/staff members for the great work that they do within our community, please submit the information to [cdmino@bcps.org](mailto:cdmino@bcps.org) and cc [dlauten@bcps.org](mailto:dlauten@bcps.org). Help us recognize the outstanding efforts of our students and staff.*

*Dear Towson High School Families,*

*This past year has represented the most challenging academic year for educators, students, and families. We have been challenged to think and act differently in response to a variety of circumstances. Our students, staff, and families continue to excel beyond tradition. As we embrace the start of a New Year, we are reminded of the daily sacrifices that our families, students, and educators continue to make for others. Each day, we experience happiness from the encouragement and compassion of supportive staff, students, and families.*

*We are so grateful for the daily contributions of our leaders within our school and community that refuse to give up. We understand that happiness is not an absence of problems, but rather happiness can result when we work together to solve problems. We commend our staff, students, and families for their resilience during this time.*

*On behalf of the staff and faculty of Towson High School, we wish you all a very Happy Holiday Season!*

Principal DiMino

For Towsonolabokaflod, National English Honor Society, under the direction of Ms. Flynn, helps flood Towson High with books and reading and RELAXATION!

## Towson High School Music Department

The Music & Theatre Department is busy preparing for the upcoming virtual performances in January 2021! As directors, we have all become studio musicians, arrangers, audio and video editors, and professional producers during this time of remote learning!

Follow this link for a brief introduction of our department members: [Meet the Directors](#)

### **Virtual Winter Concert**

We are excited to invite you to the Virtual Winter Concert on Thursday, January 21st at 7:00 p.m. This is a virtual production that will be shared with you to enjoy! I hope that you and your family will be able to attend the virtual event.

### **Music Classes and Extracurricular Activities**

Under the direction of Mr. Rhen, the GT Jazz Ensemble is studying jazz harmony, improvisation, and concert literature. GT Wind Ensemble is practicing technical skills and is also practicing and preparing concert music.

Special recognition goes out to junior band member Yiyun Li who has qualified for the All National Honors Ensemble! This is an amazing accomplishment. She will play a 1<sup>st</sup> clarinet part in the All National Honors Band. Follow this link to see the official announcement: [Yiyun Li Article](#)

GT Chamber Orchestra and Guitar classes are going well under the direction of Mr. Olin. Guitar classes are learning new skills including PIMA fingerpicking technique and bar chords. This is a challenge that the students are rising to meet. The GT Chamber Orchestra class is hard at work on a combined virtual ensemble with the GT Wind Ensemble called "In C Dorian." Students are analyzing 16<sup>th</sup> note counting systems and patterns to achieve musical excellence through performance.

Piano classes are progressing through a rigorous course of instruction. The percussion ensemble classes are also preparing music for the concert in January. The after-school Percussion Coalition is also preparing more difficult literature for performance under the direction of Mrs. Ferrell.

The choral program is alive and well and there is an after-school program headed up by our vocal director, Mr. Jackson. Way to keep it going maestro!

### **THS Marching Generals**

The Towson High School Marching Generals have been meeting twice a week (or more) since September! It is a wonderful time to socialize, review marching technique, and prepare music for the upcoming virtual concert. The show entitled "The Best Of" will be presented at the production.

### **MD All State Auditions**

Many of our students in the performance ensembles have auditioned for MD All State Ensembles and we are awaiting the results. Stay tuned! (Get it?)

### **BCPS Composer Project**

All Music and Audio Technology students are working hard to complete their compositions for the BCPS Composer Project. The BCPS Composer Project allows BCPS students to showcase their own original musical compositions. All entries are reviewed by a panel of judges and previously, several THS students have been recognized for their work. Last spring, Brandon Yoon's entry "Play it Cool" received honorable mention and Makiah Jennings' song titled "The Confidence of Being Bold" was determined to be exceptional work. Stay tuned for results in the spring.

### **Vella Silver Recital Finalist**

Please congratulate senior Grace Null on being a Vella Silver Recital Finalist! Grace performed two challenging songs on the Peabody virtual recital that showcased her technical ability. Grace has applied to Michigan State University, Indiana University, Towson University, Westchester University and the University of Maryland and plans to major in Vocal Performance. Two other Towson High musicians also participated in the virtual recital on December 2<sup>nd</sup>: sophomore flutist Claire Shi and senior pianist Alan Mao. Congratulations to all of you!

I wrote a book; you guys should read it. It is all about natural selection and what I have learned in my 5 years on the Galapagos islands.

C.Darwin  
just realized we do not come from monkeys we are from a common species that monkeys and humans had.

Students in Mrs. Schrader's Living System's class created Twitter Profiles to describe the life and work of Charles Darwin. Students created their profiles using a Google Template and were able to explain the role Darwin played in the development of the Theory of Natural Selection. Check them out!

@therealcharlesdarwin  
Have you ever heard of my theory of natural selection? My theory states that animals and organisms over time will change because of behavioral traits. These traits help them survive and adapt to the surroundings. Crazy right?

@therealcharlesdarwin  
Many ask how I know what I know. I studied on a 5 year voyage to the galapagos islands! I saw crazy animals and mockingbirds caught my attention. From there the rest is history! That is where I gained my knowledge.

@therealcharlesdarwin  
If you don't know me yet you should check out my page! I may seem an interesting person. I created many theories and I am a very reputable scientist. Check me out!

In Natural Selection tiny changes in traits over many years leads to variations in a species.

An animal's ultimate goal is to be able to reproduce. Animals with the best suited traits for their environment have a better chance of reproducing and passing those traits on to offspring.

## AQUATICS

Students in Ms. Damon's Aquatics classes created tweets and Instagram posts about penguins as part of their lesson on aquatic birds. These submissions are from the following students: Stella Beernink, Evan Wohltmann, Helena Grimm, Aslynn Gorkos, Amani Smith, Eden Jenkins, and Helena Gleason.

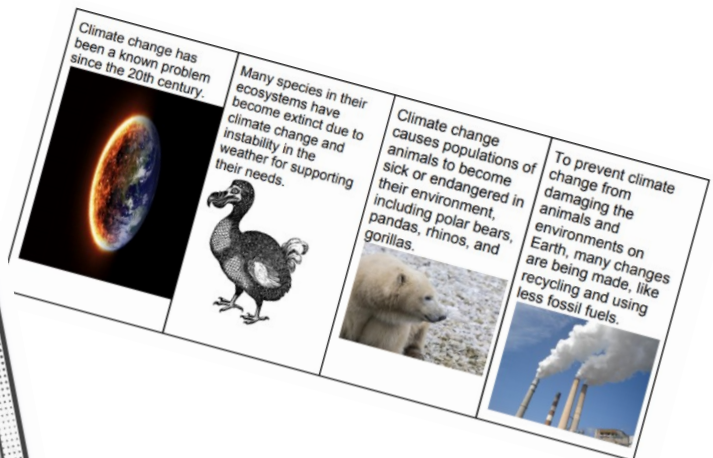

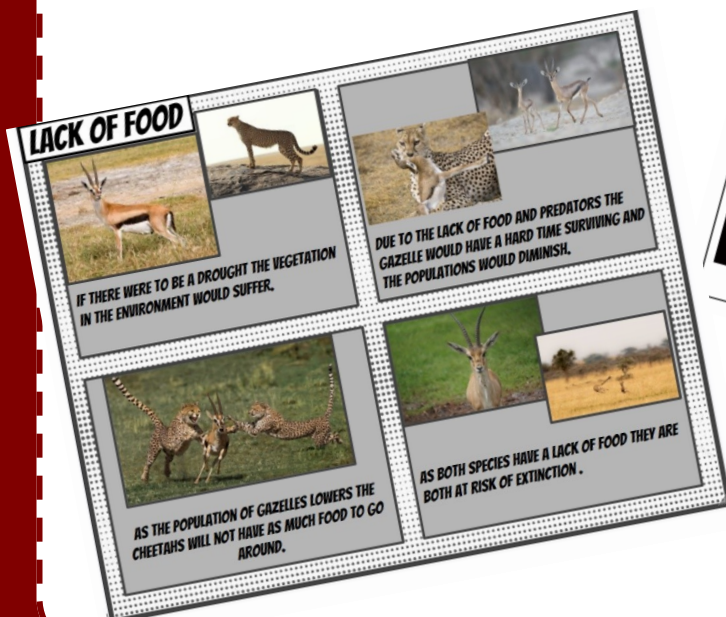

# LIVING SYSTEMS

Students in Mrs. Schrader's Living Systems Class created comic strips in order to explain Pre and Post Zygotic Reproductive Barriers and Causes of Extinction. Students chose their cause or barrier to create their final product. Check them out!

## EARTH SYSTEMS

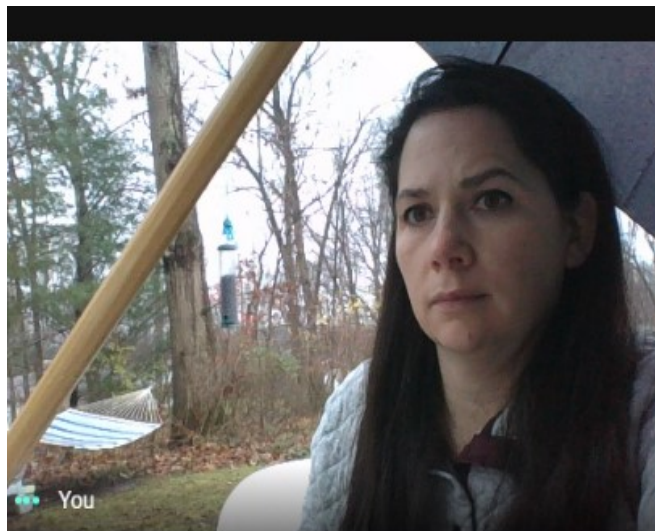

Students in Earth Systems classes collected data for Citizen Science by participating in Project Feeder Watch. They monitored their own backyard feeders or their teacher's bird feeders to collect data on the types of species arriving to the feeder and their local populations. This data will be used by Citizen Science and the Cornell Lab of Ornithology to track climate change's effects on local and global songbird populations.
